

COMMUNITY MEMBER/STAKEHOLDER SURVEY

A U.S. Department of Energy Site-Specific Advisory Board (SSAB) chartered under the Federal Advisory Committee Act (FACA) by the Assistant Secretary for Environmental Management.

The NNM CAB provides the U.S. Department of Energy with formal Recommendations regarding Environmental Monitoring, Remediation & Waste Management Issues at the Los Alamos National Laboratory (LANL).

Please return this survey no later than May 1, 2008.

Please mail completed survey to:

NNMCAB

1660 Old Pecos Trail, Suite B

Santa Fe, New Mexico 87505

You can also reply online at www.nnmcab.org

Questions? Call the NNM CAB office at: 505-988-1749

1. Please tell us which of the following apply to you (check all that apply):
 Los Alamos resident Santa Fe resident Santa Fe County resident
 DOE employee DOE contractor/subcontractor Other interested party
2. Please tell us how much you know about the NNM CAB mission and activities:
 Well informed Somewhat informed Not informed at all
3. Please tell us what issues are of most concern to you as a neighbor/stakeholder of DOE facilities at the Los Alamos National Laboratory:
 Cleanup of radioactive and chemical contamination
 Long-term care (stewardship) of radioactive contamination left in place and waste put in radiological landfill at Area G (Waste Management Facility)
 Management of contamination at Area G after the lab completes cleanup
 Storm water runoff and drinking water supplies
 Contamination of drinking water from existing Material Disposal Areas (MDA)
 Continued generation of radiological waste
 Air pollution from LANL activities
 Receiving timely information about issues relating to LANL activities
 Receiving timely information about polluting events
 Visual impact of existing MDA's
 Visual impact after cleanup and remedies applied to MDAs
 Possibility of future fires and associated problems

- ___ General community & citizen concerns about living near radioactive waste landfill/waste areas
- ___ Transportation of radioactive and chemical contamination on public roads
- ___ Contaminated groundwater and cleanup/reduction of radioactive and chemical contamination released off DOE property
- ___ Increasing public involvement in the work of the NNM CAB
- ___ Increasing public awareness in the work of the NNM CAB
- ___ Increasing public education in the work of the NNM CAB
- ___ Soliciting public participation in all NNM CAB deliberations
- ___ Providing meaningful opportunities for collaborative dialogue among diverse multicultural communities in Northern New Mexico
- ___ Insuring NNM CAB recommendations about LANL include informed advice from the communities.

Other (please be specific): _____

What single issue should be of highest priority to the NNM CAB environmental cleanup program right now? _____

4. Please tell us if you have read or heard about NNM CAB in the past 6 months through the following sources (check all that apply): ___ NNM CAB newspaper ad/article
 ___ NNM CAB web site ___ NNM CAB Annual Report
 ___ Cable TV ___ DOE Public Involvement News ___ Attended NNM CAB meeting or Forum ___ Friend or NNM CAB member
 Other: _____

Please add my name to the NNM CAB newsletter mailing list:
