# Community Involvement

---

- **The Board interacts with the DOE to provide advice on matters within its scope, on behalf of the citizens of Northern New Mexico.**
- **These matters may be raised by Board members, the public, DOE, or federal, state, or local regulatory agencies.**
- **The Board seeks a free and open two way exchange of information and views between Board members and the participating agencies. Board members may request access to independent technical advice, staff, and training.**
- **The Board will remain accountable to the public and DOE and seek to promote multicultural community involvement.**
